

High 5 Software IS GOLDEN

March 6, 2007

High 5 Software Earns QuickBooks Gold Developer Status

High 5 Software has been named a QuickBooks Gold Developer. As the developer of multiple QuickBooks compatible software solutions, High 5 has always had a tight relationship with Intuit. A few months ago, Intuit changed the developer partner program to better qualify partners. After completing a complex process that involved having the software pass a 30 point technical review and in-depth user survey (both done by independent 3rd party vendor assigned by QuickBooks) Intuit / QuickBooks has awarded High 5 software it's highest ranking of Gold Developer. As part of the process, High 5 also submitted a case study from CSSR, Inc. a SMP & QuickBooks user. This case study explains how CSSR, Inc. was able to manage the work order process four times fast using SMP - Service Management Professional with QuickBooks.

SMP - Service Management Professional Software by High 5 Software

- | | |
|-------------------------------|----------------------|
| ▪ 30 Point Technical Review | Passed, No Issues |
| ▪ Independent SMP User Survey | Passed |
| ▪ SMP User Case Study | Completed & Approved |

About SMP:

SMP - Service Management Professional offers a full suite of integrated features designed to improve field service businesses. It allows companies to manage Work Orders, Inventory, Customer Equipment, Maintenance Contracts and more. This software is designed for industries that install, service, or maintain equipment such as Telecom, IT, Security, and more. SMP also works with (or without) QuickBooks.

From the President:

"High 5 Software's relationship with QuickBooks is an integral part of our business plan. We were first to market with a service management solution that worked with QuickBooks back in 2003 and since then have expanded to offer QuickBooks compatibility with all of our products. QuickBooks is the clear leader in accounting software for small businesses and most of our clients use QuickBooks but they also need a solid service management solution. QuickBooks + High 5 Software provides the perfect solution for field service businesses."

- **Mark Stair, President, High 5 Software.**

About High 5 Software:

High 5 Software has been producing quality service software since 1989. Over the last 18 years, thousands of businesses have used our software. Located in Kenmore, WA, High 5 has customers in virtually every facet of the service industry, and has established itself as one of the premiere suppliers of service management software. Specializing in solutions for small and medium size field service businesses, the company has partnered with other companies that serve this market such as QuickBooks, Microsoft, Salesforce.com and more.
